StepOne RETAIL offers mobile software solutions for in-store retail to better manage prices, control inventory, run an effective stock room and completely change how customers are engaged. Through this cloud-based hosted solution, StepOne Systems will simplify implementation and provide a secure, low-cost infrastructure option to its clients.

"Adding a SaaS option to our product portfolio via Ascent2Cloud is a natural extension for customers looking to add new mobile applications quickly and easily to their in-store environment. Through Ascent Data, we are able to deliver software to our clients faster and more effectively, reducing implementation time by up to 75 percent," said Todd Berner, CEO at StepOne Systems.

Ascent Data was selected after careful consideration, based on their experience as a cloud hosting provider, for the security of their SAS 70 Type II data center, and the 24x7x365 availability of their senior-level technical staff.

"Ascent Data understands the requirements of a robust hosted cloud solution. We needed more than just a hosting provider for our StepOne RETAIL Mobile App Server, we needed a partner that understands and appreciates our business and our customers' unique needs. That partner is Ascent Data," said Berner.

Steve Shangold, CEO at Ascent Data, said "We are pleased to assist StepOne Systems in expanding their reach to a wider-range of retail clients through Ascent2Cloud. Our experience in cloud computing and working with SaaS clients, combined with StepOne Systems' industry-leading software will create a perfect blend of superior performance and data security for their clients."

About Ascent Data

Ascent Data is Pittsburgh's trusted provider for Cloud Computing solutions and Data Center services, including Colocation and Managed Services, Encryption of Data-in-Motion, Remote Digital Data Backup, and Disaster Recovery and Business Continuity solutions.

Customer infrastructure and applications are protected in our secure, resilient, state-of-the-art SAS 70 Type II Certified data center in O'Hara Township, near Pittsburgh, PA.
